

Best Engineering Solution Limited

Quality Is Our Priority

Company Profile

March 2024

INTRODUCTION

Background

The historical background and experience of **Best Engineering Solution Limited** cannot be complete without mentioning and accruing the background and experience of **Best Engineering Solution (Business Name) and its founders**. Before registering Best Engineering Solution Limited all the operations of unregistered **Best Engineering Solution Limited** were carried out under the Business Name of **Best Engineering Solution**. It is also true and important to say that all the assets, liabilities, investments, projects, goodwill, work experience and workforce of **Best Engineering Solution** are **totally taken over by Best Engineering Solution Limited**.

This background means that while mentioning past works and assignments performed by this company as experience, we also consider previous works and assignments undertaken by the proprietor and Best Engineering Solution as a whole prior to establishment of Best Engineering Solution Limited to be part and parcel of the historical background and experience of this firm.

Establishment and Legal Status

Best Engineering Solution Limited is a Tanzanian private limited liability company established and registered in Tanzania under companies' ordinance cap 212 vides **registration number 170260678** on November 22, 2023 after taking over the existence of Best Engineering Solution business name.

Best Engineering Solution Limited is also registered by Tanzania Revenue Authority (TRA) as a taxpayer with **TIN 170-260-678** with effect from November 22, 2022.

Best Engineering Solution Limited is looking forward to be registered by Tanzanian Contractors Registration Board (CRB) in building, civil, electrical, mechanical and specialized fields soon.

In addition to being an engineering solution provider of engineering and construction products and services, Best Engineering Solution Limited also offers business, managerial and technical consultancies with vision to becoming one of the trusted and dependable providers of quality products and services throughout the year and cross seasons in the area.

Affiliations

Best Engineering Solution Limited works in **Joint Venture (JV)** with **Current Group Company Limited** (a long term experienced and CRB registered company) in most of construction (Building and Civil) Works projects. In this kind of Joint Venture situation Best Engineering Solution Limited becomes a major supplier of logistics, labor and materials of the respective projects.

Best Engineering Solution Limited also works in **collaboration** with **Definite Consulting Company Limited** in all technical consultancy and civil/construction works.

More importantly, Best Engineering Solution Limited has a dedicated team of experts working around the clock to make sure that our customers get the best solutions, products and services.

Vision

To become one of the best, trusted and dependable providers of quality products and services, including engineering and technical solutions, and managerial and business consultancies in the market delivering beyond customers' expectations and satisfactions.

Mission

To procure and execute projects with competence, at competitive prices, safe working conditions, professional standards, and deliver quality products and services within the stipulated specifications and time-frame.

Core Values

Integrity: We do the right thing regardless of the consequences.

Commitment: We honor all commitments to our customers, employees and shareholders while conducting business with unwavering high standards of honesty, trust, professionalism and ethical behavior.

Professionalism: We strictly adhere to courtesy, honesty and responsibility when serving our clients.

Accountability: We take responsibility for individual and collective actions.

Competence: We adequately possess the required legal status, skills, knowledge, qualifications and capacity to undertake all professional assignments.

Team Work: We effectively work collaboratively in order to achieve our goals. We are dedicated to maintain a caring and supportive work environment that fosters a sharing of experience, skills and resources.

Quality: We put the interests of our customers first and be dedicated to providing an individualized business experience that assures customer satisfaction and earns their unwavering loyalty.

Pursuit of Excellence: We continually strive to exceed the expectations of our clients.

ORGANIZATION STRUCTURE

Governance

The company is governed by three main organs which are the Company Owners, Board of Directors and the Management.

Company Owners

Company Owners are the shareholders (members) of the company. There are two (2) shareholders of this company – all Tanzanians with equal shares. They are the supreme organ of this company with final decision and mandate to form the Board of Directors to oversee the Management on its behalf.

Board of Directors

The Board of Directors links between company owners and the management of the company. The Board of Directors oversees the management on behalf of the company owners. The Board of Directors is the decision maker organ of the company on behalf of company owners.

Management

The management of this company which has the major responsibility to oversee and supervise day-to-day activities of the company is made up of the Managing Director (MD) as the overall in charge of the management, the Technical and Operations Director (TOD) – head of technical and operations issues, the Financial and Administrative Manager (FAM) – the head of Finance, Administration and Human Resources, the Business Development Manager (BDM) – head of business development and marketing, and Consulting and Planning Manager (CPM) – head of Consultancy services. While the Managing Director (MD) reports to the Board of Directors (BoD), all heads of departments report directly to the MD.

Project Management

When it comes to managing projects the company management normally forms a project team relevant to execution of a specific project. Generally, the project management composes of the following basic team members:

The **Project Manager** – Head (overall in charge of day-to-day activities) and spokesperson of the project;

The **Project Engineer/Technical Manager** – Head of operations and all technical matters;

Project Finance Manager/Project Accountant – Head of project finance and accounts matters and custodian of project finance records and reconciliations.

Project Technical and Support Staff

For successful implementation of routine activities the management is supported by a team of technical and support staff including Administrative Officer (Chief Secretary), Office Assistant, Accounts Assistant, Store Assistant, Procurement Officer, Logistics Officer, etc. to carry out day to day functions. All these staff reports to respective heads of departments of functional areas.

These are other project team member for performing specific functions and works including engineers, artisans, administrative/office assistants, stores assistants, drivers, accounts assistant, security guards, technicians, etc.

The company has a reliable, dependable and comprehensive team of technical and support staff available and ready prepared to carry out multiple tasks and projects.
